SWOT Analysis of PKM Road Map for Undergraduate Economics Study Program

ANALYSIS OBJECTIVES
The Bachelor of Economics Study Program is still in the development stage to improve the quality and quantity of PKM. Collaboration between study programs, faculties and universities is needed to carry out PKM so that it produces maximum impact for the target community.

INTERNAL FACTORS	
STRENGTHS (+)	**WEAKNESSES (-)**
1. In one department there are two study programs, namely the Bachelor of Economics Study Program and the Islamic Economics Study Program 2. The expertise of the lecturers in the Bachelor of Economics study program is diverse 3. There is a variety of PKM financing	1. Inclined scientific field oriented towards economic modeling and social engineering, the results are not as quickly visible as those produced by PKM Product 2. There is a limit on the number of PKM members in one PKM group 3. Lecturer collaboration still tends to be within one department, not between departments or faculties

Machine Translated by Google

EXTERNAL FACTORS	
OPPORTUNITIES (+)	**THREATS (-)**
1. The number of PKM grants 2. The number of target communities who have not received PKM activities 3. The expertise of lecturers outside the department is very diverse, thus opening up the possibility of more useful PKM	1. There are regulations that must carry out PKM with parties who have collaborated with the institution to limit exploration and community integrity target 2. The PKM program is unsustainable from year to year and tends to only be a one year program 3. There is no assistance after PKM is carried out

EVALUATION OF OBJECTIVES
1. It requires a lot of collaboration between lecturers, both between study programs, between faculties, and between universities both domestically and abroad 2. PKM activities need to be carried out sustainably in one area so that it can be done to produce assisted villages/residents 3. increasing lecturer participation in PKM grant competitions at national and international levels
